

Panel of Experts for CO₂ Geological Storage 2019 Report

Nikolaos Koukouzas
Coordinator

EFG Autumn Council Meeting
Brussels, Belgium
23-24 November 2019

Challenges

- **Communication with broad public.** Communication with local decision makers, regulators and local communities.
- **Legislation and regulatory framework.** Current legislation framework, future legislation.
- **Financial feasibility for long term CO₂ storage.** Cost reduction, attraction of investments, financial risk assessment.
- **Identify risks.** Leakage risks, aquifer-contamination risks.

Outlook

- e-mail meetings
- Identify persons active in the field of CO₂ storage.
- Identify members in similar forums.
- Potential engagement through H2020 proposal writing, press release and statement papers

Thank you for your attention!
