

Panel of Experts for Natural Hazards and Climate Change 2019 Report

Pavlos Tyrologou
Coordinator

EFG Autumn Council Meeting
Brussels, Belgium
23-24 November 2019

Main activities in 2019

- 1. Meeting 3 times per year, email meeting
- Horizon2020 projects
- 2. Eurogeologists title
- 3. Disaster Risk Management Knowledge Center

Report Science for DRM 2020: acting today, protecting tomorrow from the DRMKC

- 4. Fitness Check Water Framework Directive and Floods Directive - targeted consultation - online survey

Challenges

- Engagement – always a challenge

After initial enthusiasm, people become less and less engaged – Solution : keep 2- 3 active members as permanent, whereas the rest serve for a 3 year period. On each period identify the most active and invite them to serve on a more permanent basis. On the long term a permanent team will be builded, based on the culture and the engagement.

- Communication channels

- Alignment with the EFG strategy

Outlook

- Seek more engagement with intergovernmental organisations
- Seek engagement to European policymaking
- Seek further engagement from the PE members
- Seek collaboration with coordinators from other PE
- Involve members in H2020 projects

Thank you for your attention!
